Young MEN, TAKE PARTICULAR NOTICE.—
Dr. II. descrice much of his time to the treatment of these cases caused by a secret habit which rouse both sody and mind, unfitting the unfortunate individual for with reminers or society. The sad effect of these early habits, or the excess of riper years, are to weaken and debilitate the constitution, destroy the physical and mental powers, diminish and enfeeble the natural freetings, and exhaust the ritial energies of manbod; the pleasures of life are marred, the object of marriage frustrated, end existence itself rendered a term of uncessition missay and regret. Such persons, especially those contemplating marriage, should lose no time in making memoriate spiliestico, as Dr. II., by his new treatment, is enabled to insure a speedy and permanent care.

Another point of growleg importance is Mississippi City, whose capture by the United States troops we mentioned some time since. This position is on the shore of Mississippi Sound, in the extreme southern portion of the State bearing the same name. The entrance of the Federal troops at this point created the greatest consternation among the residents of New Orleans, and also through all the lower portion of the State which is entitled to the citizenship of the great rebel, Jeff Davis. Mississippi City has a good harbor, and has always been regarded as a half-way point

Referring to New Orleans, an Eastern correspondent says that a flotilla with, say 5,000 men, could he started from the deep waters in Lake Borne and rouch the Isuding at New Orleans in ten or twelve hours. The land, for more than twenty miles around, is a low swamp, easily swept by the guns of a fleet. There is not an armed vessel of any kind upon the lake, nor is there any impediment upon the route of a mosquite fleet, except Fort Pike, at the Regolets, or main passage between Lakes Cerne and Ponchartrain. .
